

Expenditure Adjustments:

Additional Appropriations

1. The City's annual Street Maintenance Program is under way. Residents who live on Olentangy Ridge Place have expressed concerns with the City resurfacing their street and repairing their curbs. On Olentangy Ridge Place, the entire west side of the curb needs to be replaced due to its condition and the east side of the curb is scheduled only for spot repairs due to it being in better condition. The residents would like the east side curb to be replaced so there is not a "patch work" appearance on their street. An additional appropriation from the fund balance is necessary to allow a change order to be processed for this additional expenditure for curbs.

Street Maintenance & Repair Fund, Operating Expenditures

\$ 12,000.00
